- Are the idioms appropriate for the data they are displaying?

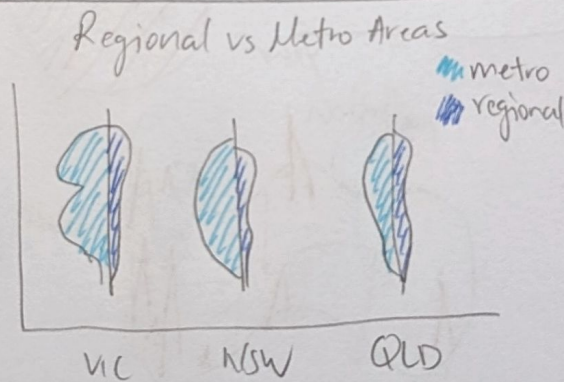

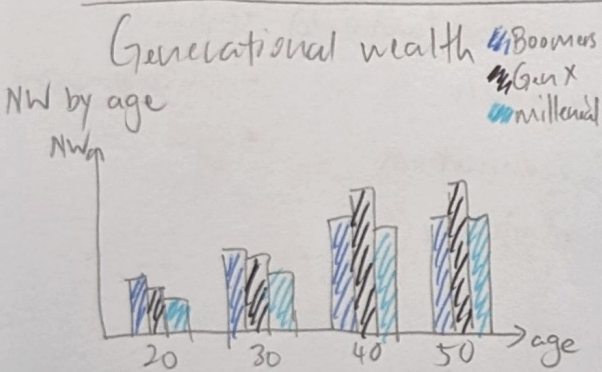

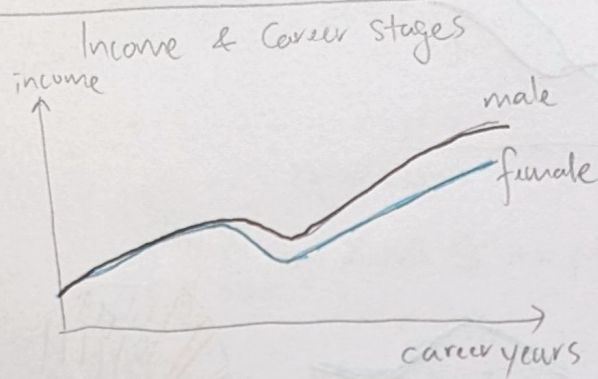

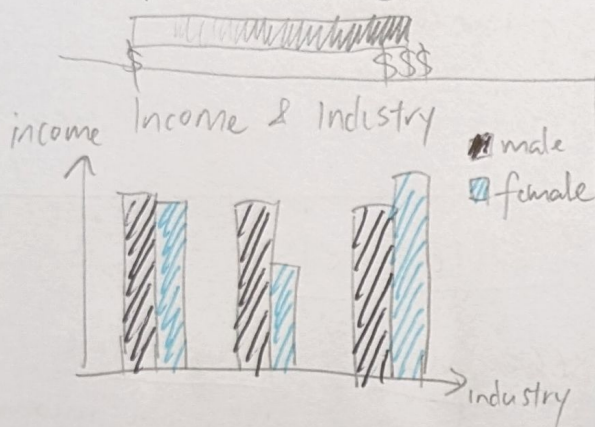

ERIC Wong - Sheet 2

LAYOUT

Aus Median Income

Median Income

Title: Block by block view

Date: 21/9/2025

Sheet: 2

Task: Data visualization II

OPERATIONS

Graph ①:

• tooltip

Filters for graph ② & ③

Tooltip for graph ④ & ⑤

Add state filters for ⑤

Could implement search function for towns

FOCUS

→ Main focus on graph ①

↳ Use it to convey main information

↳ As detailed & accurate as possible

→ Follow the dashboard to supplementary graph ②, ③, ④, ⑤

→ Add blocks of text to convey information or highlight important details.

DISCUSSION

Pros

→ Has a main focus

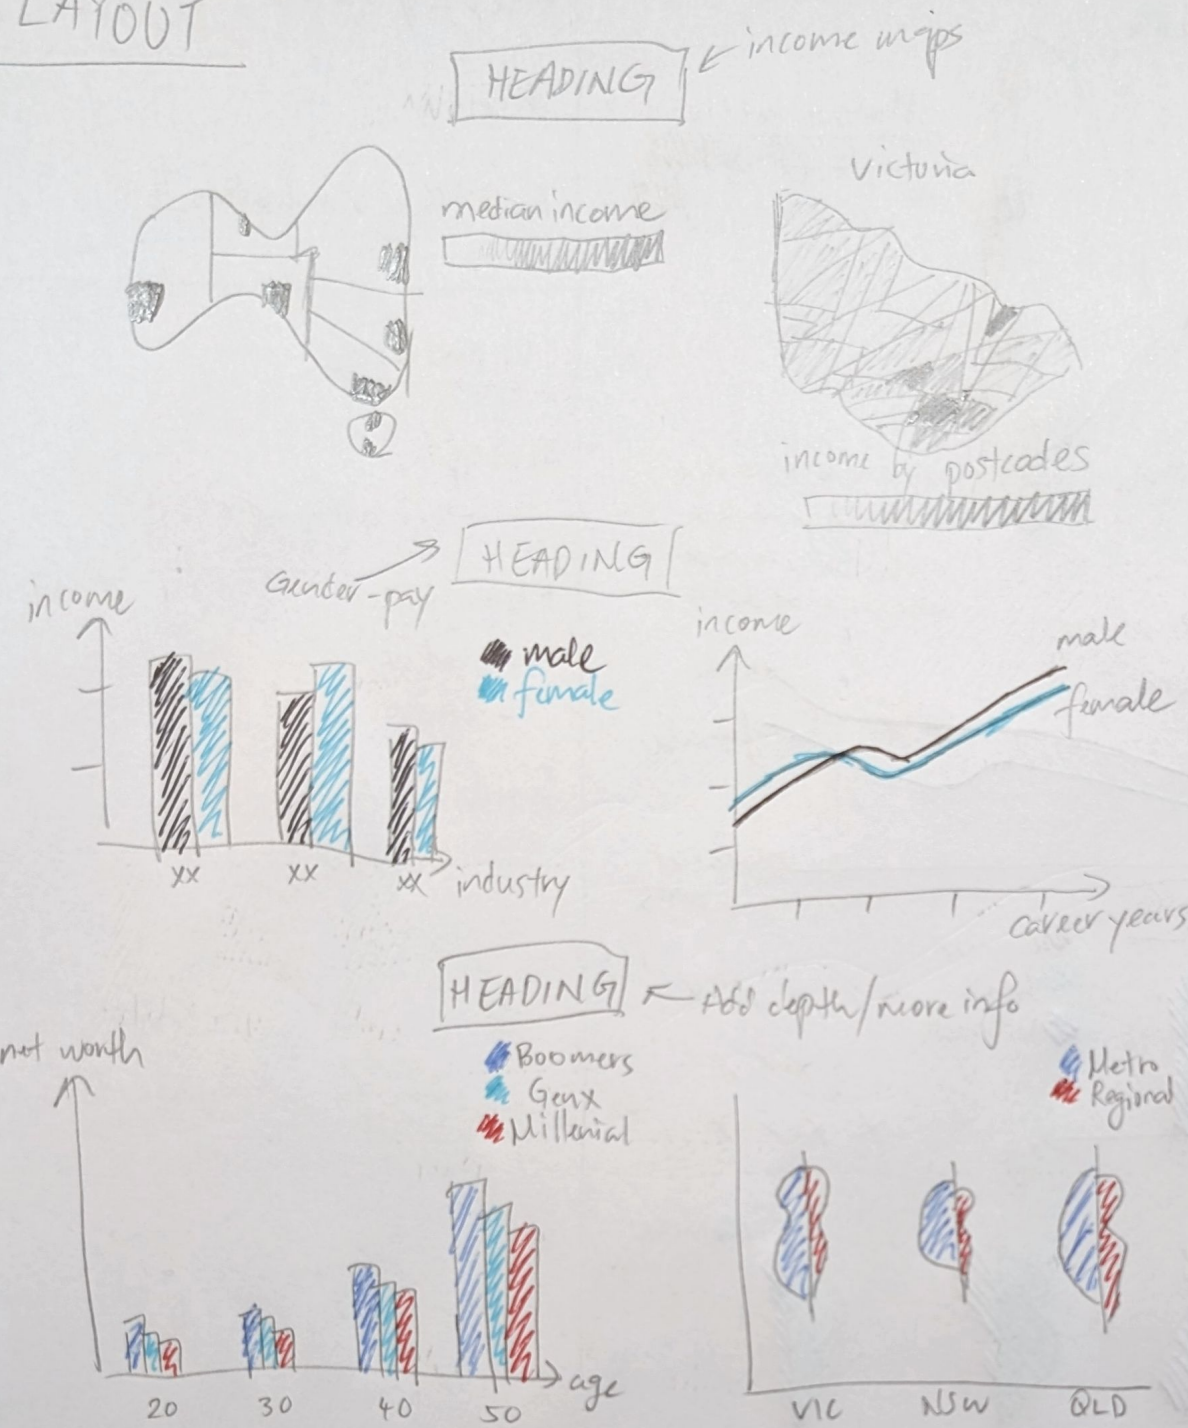

→ Simple layout, easy to follow clear sections

Cons

→ 2 graphs on a row may be confusing

→ May not be visually appealing

LAYOUT

Title: Row partitioned view

Date: 21/9/2025

Sheet: 3

Task: Data Visualisation II

OPERATIONS

Tooltips:

- graphs (all)

Search for graph ②:

- suburbs

- postcodes

Filters for graph ③ & ④ & ⑤ & ⑥

FOCUS

- No main focus; all graphs are equally weighted
- Follows traditional left → right, top → bottom flow
- Add texts / stories under graphs to highlight important points
- Can add texts to graphs too to highlight specific data

DISCUSSION

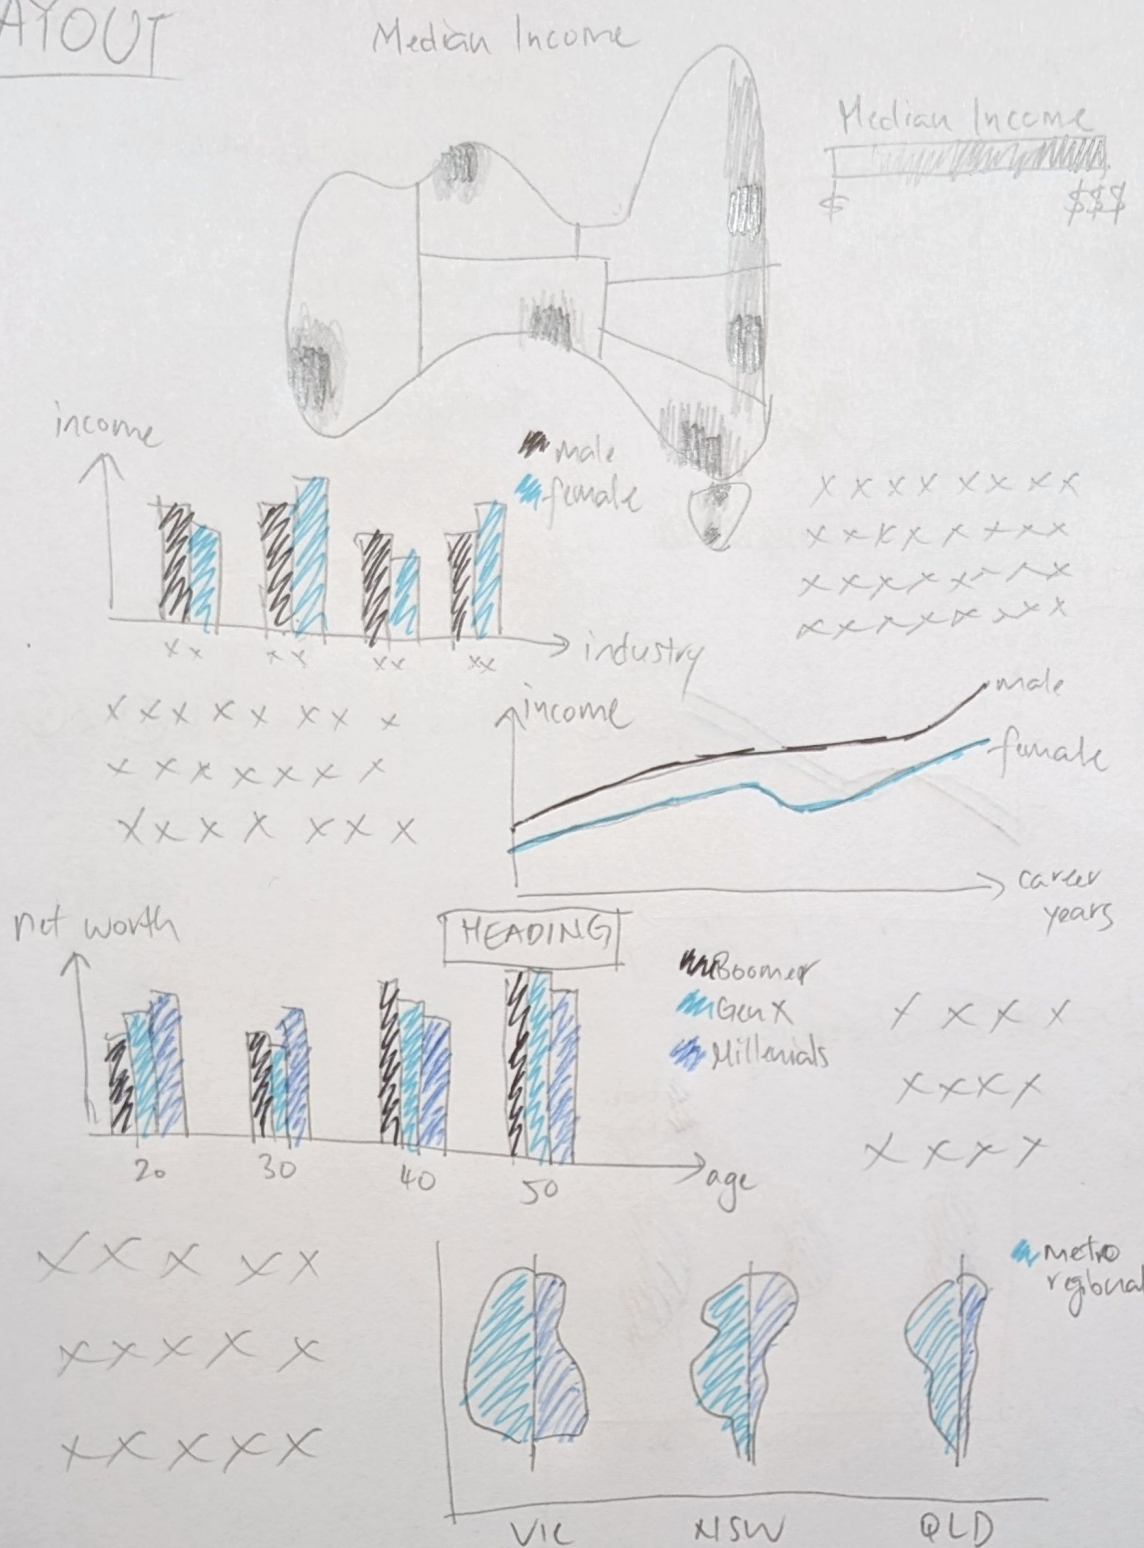

Pros

- Simple layout, easy to understand
- Minimises whitespace
- Compact & concise

Cons

- Crowded every 'row'
- May not make sense if graphs in the same row are not related

LAYOUT

Title: Row by row view

Date: 23/9/2025

Sheet: 4

Task: Data Visualisation II

OPERATIONS

Tooltip:

- For all graphs

Filters for:

- gender
- state

Search function for:

- cities/towns

FOCUS

- Main focus would be the map that the user sees first
 - ↳ As detailed & accurate as possible
- User follows this dashboard row by row
- Blocks of text tells stories or convey extra information

DISCUSSION

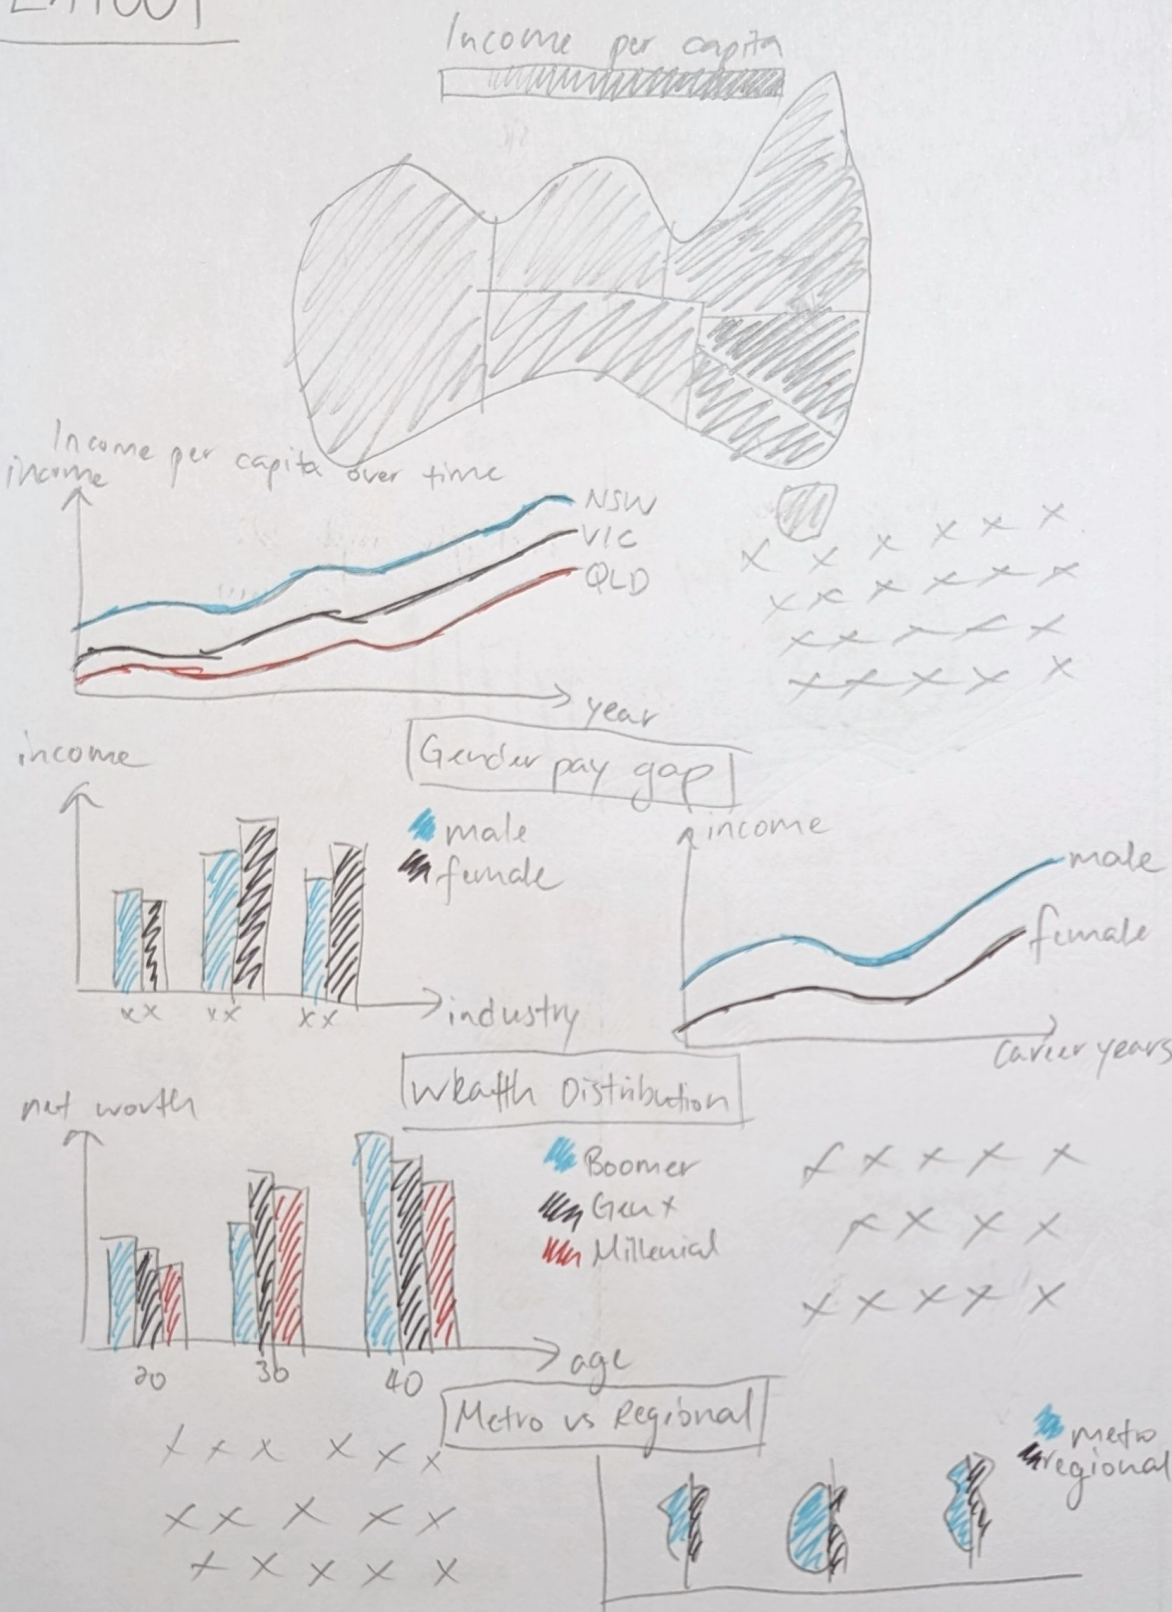

Pros

- Includes a main focus (map)
- Simple, easy to follow format
- Each row shows 1 graph only

Cons

- May be a 'long' dashboard if there are many graphs

LAYOUT

Title: Final Design Sheet

Date: 23/9/2025

Sheet: 5

Task: Data Visualisation II

OPERATIONS

→ Filters:

↳ by state/territories

↳ by gender

↳ by regions (metro etc)

→ Interactions:

↳ tooltips (hover)

→ Search:

↳ postcodes

→ Zoom:

↳ map

DETAIL

→ 1 main focus:

↳ map

→ Ensure appropriate white spaces

→ Dependencies:

↳ Vega-lite, Excel, HTML/CSS/JS

→ Estimated time/effort:

↳ 7 days for all idioms

↳ 3 days for layout

FOCUS

→ Income across states/territories

→ Income over time

→ Gender pay gap

→ Wealth distribution

→ Metro vs regional pay

- tooltips to display more specific information.

- add texts/paragraphs for storytelling.
